Minister Sikes in Great Danger in  
Madrid—His Life in Jeopardy—  
Against Americans—The War  
Cloud Thickens.

WASHINGTON, Nov. 22nd.—Des-  
patches received by the Secretary of  
State are confirmatory, in part, of  
the special telegrams from Madrid,  
in regard to the demonstrations  
against Minister Sikes, though the  
Secretary is of the opinion that the  
specials are somewhat exaggerated.  
The mob which collected in front of  
the American legation was promptly  
dispersed by the Government, and  
there is no doubt here in official  
circles but that the authorities at Ma-  
drid are fully capable of preventing  
any outbreak. The position of Min-  
ister Sikes is very uncomfortable,  
but it is not believed that any vio-  
lence will be offered, as Mr. Sikes  
telegraphs that the Spanish officials  
are equal to the emergency. Min-  
ister Sikes is hourly in communica-  
tion with the State Department and  
his dispatches indicate the existence  
and expression of a very strong feel-  
ing against the United States.

Secretary Fish submitted a number  
of telegrams from Minister Sikes to  
the Cabinet meeting to-day, as the  
session which has just commenced  
will in all probability be one of the  
most interesting and serious sessions  
since the commencement of the present  
complications. The members of  
the Cabinet this morning seem to be  
very serious in their demeanor, and  
there appears to be a more extended  
discussion in all places as to the prob-  
abilities of war than has yet been no-  
ticed. At the Department, so far as  
has been known, the official views  
from Spain have not varied in the as-  
sertions of the honesty of the Castel-  
lar government to preserve friendly  
relations and to command calmness  
and dignity during the progress of  
the negotiation.

The excitement of the populace in  
Madrid does not seem to be shared by  
the Government there, as is evi-  
denced by the Secretary of State  
here that there is an exaggeration in  
the unofficial reports and the asser-  
tions of Mr. Sikes that the Spanish  
Government is unable to preserve order  
and has suppressed hostile indication  
against American legislation at Ma-  
drid. The Secretary of the Navy  
returned to this city this morning  
and was at the Department at a very  
early hour. A large number of army  
officers have been ordered to duty to-  
day, to the ships of heavy ordnance,  
now being fitted out for immediate  
active service. A Naval recruiting  
office has been ordered to be opened  
at New Orleans.

A "Herald" Special—Spain Means  
War—Gen. Sikes and the Spanish  
Cabinet, Etc.

MADRID, Nov. 20.—The situation  
is grave. There is a serious misun-  
derstanding between Gen. Sikes and  
the Spanish Cabinet. On arrival  
of the news of the capture of the  
Virginian, President Castelar called  
at the United States legation and  
expressed regret, and ordered the  
suspension of the sentence. When  
Secretary Fish telegraphed the news  
of the execution, Gen. Sikes sent a  
note, at 2 o'clock in the morning, de-  
manding a stay. The Spanish  
Foreign Affairs answered, questioning  
the accuracy of the information and  
intimated that Sikes' action was  
not authorized. Thereon, Sikes, in  
the name of the United States, ad-  
dressed a formal protest against the  
inhuman butcheries and the result  
to the United States, and again de-  
manded that Spain should enforce  
obedience to orders in Cuba, and  
insisted on the rights of Americans  
to trial under the treaty of 1796.

He complained that the American  
Consul at Santiago was prevented  
from using the telegraph to Wash-  
ington. The Spanish Secretary an-  
swered that the matter was wholly  
a municipal affair between Spain  
and the Virginian pirates. Spain  
could not interfere in American in-  
terference. The interview ended by  
General Sikes demanding that Spain  
should enforce the order of the  
Cabinet to Cuba for suspension of  
the executions. The Spanish Min-  
ister of Foreign Affairs haughtily de-  
clined to permit General Sikes to  
discuss the municipal af-  
fairs of Cuba. The interview  
terminated angrily. Sikes saying  
that he would hold no more personal,  
only official, relations with the Min-  
ister. The public feeling runs high.  
The Spaniards blame the United  
States for the Cuban insurrection,  
and say they will welcome war.  
Minister Sikes does not see how  
war can be avoided, as Spain will  
concede nothing and the public opinion  
will prevent President Castelar from  
making any concessions. There is  
no use in the United States trifling  
any more on the subject, Spanish  
stubbornness making concessions im-  
possible. The extreme Republican  
favor the views of the United States  
in the affair.

FROM THE METROPOLIS.  
List of Passengers Seized on the  
City of New York.

NEW YORK, Nov. 21.—The officers  
of the City of New York give a list of  
the passengers seized: Mrs. Donatella  
De Monte, a widow and her child,  
Ricardo Laueis and entire family,  
consisting of wife and three children  
and Donna Catalina Pares. Nothing  
suspicious was found in the clothing  
of the women or children, and they  
were charged except Laueis. Two hun-  
dred persons have been captured.  
No executions had occurred when  
the New York left.

A Caution Against Chloroform.

BOSTON, Nov. 21.—The jury of  
doctors in the case of Mrs. Mary F.  
Crie, who died from the effects of  
chloroform, administered by Dr.  
Eastman, returned a verdict this eve-  
ning. They don't condemn him. The  
jury caution the public against the  
inhalation of so dangerous an agent  
as chloroform for the production of  
insensibility to pain. They are of the  
opinion that the inhalation of sul-  
phuric ether is safe, while the intala-  
tion of chloroform, or of any mixed  
alcohol, is attended with danger.

### LOCAL BRIEFS.

Our marriage column yesterday  
morning made it James Howard in-  
stead of James Dixon. The latter  
gentleman was the lucky individual.

Some parties are organizing a com-  
pany of Home Guards in view of the  
Spanish war, not to leave Wake  
county except in case of invasion.  
We have joined.

ENOUGH.—Already enough volun-  
teers have offered themselves to sup-  
ply officers to all the North Carolina  
troops that need be raised for the Cu-  
ban war. Three privates have been  
heard from who may enlist.

BENEFIT CONCERT.—Do not forget  
that the Tremaine Bros. and Pierson  
Opera Troupe sing to-night, for  
the benefit of the Shaw Collegiate  
Institute, at Metropolitan Hall. A  
rich treat may be expected.

FARMERS' COUNCIL.—His Honor,  
Mayor Whitaker, has appointed the  
following gentlemen to represent  
this city in the Farmers' Council of  
Virginia and North Carolina, which  
assembles in Petersburg on the 25th  
inst.

Messrs. W. G. Upchurch, G. T.  
Stronach, T. F. Lee and R. T. Ful-  
ghum, Editor of the State Agricultur-  
al Journal. We understand that a  
number of gentlemen have been ap-  
pointed to represent the county but  
their names have not been furnished  
us.

CORN AND COTTON CULTIVATORS.  
—The Eureka Sulky Corn and Cotton  
Cultivator is on exhibition at the  
store of Messrs. A. G. Lee & Co.  
Mackin, where one of the patentees,  
Mr. Fry, will take pleasure in ex-  
hibiting the operations of the machine  
to all interested in the improvements  
of agriculture. We have examined  
the cultivator and do not hesitate to  
say that in our opinion it is the most  
adapted to the wants of our section.  
It is not only a great labor-saver,  
but will perform the work in a much  
more satisfactory manner than the  
old style. The patentees are anxious  
to have the machine tested, and a  
good opportunity is herein presented  
for an enterprising business man  
or firm.

TEMPERANCE.—The State Council  
of the Friends of Temperance which  
has been in session at Tarboro this  
week, adjourned Thursday night af-  
ter a large, interesting and most har-  
monious meeting. Quite a number  
of delegates from the West, en route  
to their homes, remained over in the  
city last evening and visited Oak  
City Council. Discussion of rules  
and business of the meeting, and  
the occasion some elegant refresh-  
ments in the way of cake, syllabub,  
nectar, &c., and after the banquet  
were discussed much to the pleasure  
and gratification of the party. The  
venerable Geo. Badger Whitmore,  
President of the State Council, pre-  
sided at the meeting, and the occa-  
sion will long be remembered as one  
of the most pleasant incidents in the  
history of Oak City Council.

OXFORD ITEMS.—Our correspond-  
ent at this place, under date of yes-  
terday, sends us the following items:  
Dr. Z. M. Paschall, who recently  
sustained injuries by the falling of  
his horse, has sufficiently recovered  
to resume the practice of his profes-  
sion.

Mr. Wm. A. Davis, the very youth-  
ful editor of the Torch-Light, was not  
long since on a visit here with refer-  
ence to taking the preliminary steps  
for changing the name of the paper  
from Flat River to Oxford. He con-  
templates commencing the publica-  
tion of the Torch-Light here about  
the first of next year, considerably  
enlarged and otherwise improved.

It will be gratifying to the friends  
of Mr. John C. Russell to learn that  
he has improved in health, and is now  
conducting his business in person at  
his new store on the corner opposite  
the Court-House.

For the first time in many years it  
is now nothing unusual to see wag-  
ons laden with cotton passing along  
our streets.

None of the cotton planters in this  
vicinity have mortgaged their crops,  
and consequently are under no coer-  
sive necessity to sell at this time.  
The yield per acre has, with most of  
them, been highly satisfactory, thus  
demonstrating beyond doubt or cavil  
the adaptability of the soil of many  
parts of this section of the country to  
the culture of cotton.

## LEGISLATURE OF NORTH CAROLINA.

Governor in the chair. The Journal  
of yesterday read and ap-  
proved.

from Randolph Mr. Worth, had been

in his family. Leave of absence was  
granted him.

Reports of Standing Committees.

Mr. Murray from Committee on  
Engrossed Bills submitted a report.

Introduction of Bills.

By Mr. Merrimon, a bill in relation  
to the Public Treasurer.

On motion of Mr. Merrimon, the  
rules were suspended and the bill was  
taken up on its several readings.

WHEREAS, the Public Treasurer of  
North Carolina, has refused, and still  
refuses to pay the lawful claims upon  
the Treasury of the State under the  
pretense that he has been enjoined  
from doing so by the Circuit Court of  
the Eastern District of North Caro-  
lina in the suit of one Self and others  
against him. And

WHEREAS, no such injunction has  
been granted by said Court as to issue  
against him, therefore, the General  
Assembly of North Carolina do enact,  
SECTION 1. That the Public Treas-  
urer of North Carolina be and is  
hereby required to pay out of any  
monies in the Treasury, all lawful  
warrants or drafts drawn upon the  
Treasury of the State; and if he shall  
fail or refuse to pay the sum, he shall  
forfeit the sum of one thousand dol-  
lars to be recovered at the suit of any  
citizen of the State, one-half of which  
shall go to the person suing for the  
sum, and the other half to the State;  
and he shall moreover be guilty of a  
misdemeanor, and upon conviction  
in the Superior Court of Wake coun-  
ty, shall be imprisoned not less than  
three nor more than twelve months.  
SEC. 2. That this Act shall take effect  
from its ratification.

Mr. Merrimon, in advocating the  
passage of the bill, said that there was  
no injunction upon the Treasurer of  
the State; only a notice that an ap-  
plication would be made on the 29th  
inst., before Judge Bond, for an order  
to restrain the Treasurer from paying  
out any money or moneys till the  
sum of \$242,000 was paid, etc.; only a  
notice that he shall appear and show  
cause why such an order should not  
be granted, and that he had been  
given by the Treasurer, and in his  
opinion Judge Bond did not regard  
the Treasurer as being restrained from  
paying moneys for the general pur-  
poses of the State Government. Re-  
solved, That the bill be read a fourth  
time, and the yeas and nays taken.

### Legislative Summary.

A considerable discussion occurred in  
the Senate yesterday on the bill of  
Mr. Merrimon to require the Public  
Treasurer to pay out funds on war-  
rants under penalty of failure.  
Messrs. Merrimon and Morehead, of  
Guilford, in favor of, and Messrs. Flem-  
ming, Seymour and Norwood oppos-  
ing. Pending the discussion, the fur-  
ther consideration was postponed till  
to-day at 12 o'clock.

An invitation received from the  
officers of the Fair of the Carolinas to  
visit the third annual exhibition on  
the 29th inst.

Mr. Dunham, after announcing the  
death of Hon. Nathaniel Boyden, of-  
fered a resolution that the Senate  
adjourn in honor of the memory of  
the deceased, which was unanimously  
adopted.

The proceedings of the House yes-  
terday were, in the main, unimpor-  
tant. The only matter which elicited  
any discussion was the bill for the  
relief of the Public Printer, which  
passed its several readings with very  
little opposition. The House then  
considered a resolution in relation to  
the death of Judge Boyden, which was  
ordered to be spread on the Journal.

Dudley, colored, one of the repre-  
sentatives from the State of North  
Carolina, introduced a bill doing away  
with the distinctions made between the  
railroads, hotels, &c.

The consideration of the various  
resolutions condemning the increase  
of Congressional salaries, was pos-  
tponed until to-day at 12 m.

## ATTEMPTED INFANTICIDE.

A Mother Buries Her Offspring Alive  
—The Child Rescued by the Po-  
lice from its Grave—Arrest  
of the mother.

Patsy Richardson is the name of a  
colored damsel who lives on the lot  
of Mr. King, on Harrington Street, in  
the Western part of the city. The  
movements of Patsy about the house  
yesterday evening somewhat ex-  
cited the suspicions of Mr. King, that  
something wrong was going on, and  
upon a closer examination, so well  
was he satisfied that all was not as it  
should be, that he implored to police-  
man Crossan the ground work of his  
suspicions.

Policeman Crossan at once com-  
menced an investigation of the case,  
and was soon satisfied from external  
appearances that a baby had been  
born on the premises which was not  
in sight, and that Patsy Richardson  
must have been the mother from the  
circumstantial evidence that could  
be obtained from those who had  
known her for the past six months.

Patsy, of course, protested her in-  
nocence when charged with the con-  
cealing of her offspring, and asked  
how could she be guilty when there  
was no traces of the babe to be seen?

The policeman at once ordered her  
arrest and commenced a search of  
the vicinity. A newly made grave  
was found in an adjoining lot, be-  
longing to Mr. Selby. The dirt and  
trash was thrown aside, and under-  
neath a large block of wood, covered  
with dirt, was found a babe, around  
the neck of which, was a rope tightly  
drawn three times. Strange to  
say the child was still alive, and at  
the hour of this writing, four  
hours after the resurrection, is still  
living, though with little hope of  
recovery.

The mother of the child, after the  
resurrection, made a full confession of  
her fiendish act, and is now under  
arrest.

The examination will doubtless  
take place to-day before Mayor Whit-  
aker to-day.

The child was born at 3 o'clock,  
strangled and buried immediately;  
the arrest was made at 4 and the  
resurrection at 4 o'clock. If that  
child should live to man's estate,  
what a Cuban soldier he would make!

# THE DAILY NEWS.

WILLIAMSON, STONE, Managing Editor.  
SAMUEL T. WILLIAMS, Political Editor.  
SATURDAY, NOVEMBER 22, 1896.

A SPECIAL dispatch to the New York Herald from Madrid, dated yesterday, says that a serious misunderstanding has arisen between Hon. DANIEL L. SICKLES, United States Minister to Spain, and the Spanish Cabinet, growing out of the Virginus affair.

When SICKLES addressed a note to the Spanish authorities, asking for a copy of the execution of the men on board the Virginus, he received an answer, doubting the authenticity of the information and questioning his authority to act in the premises. SICKLES then made a formal protest against the inhuman butcheries and the insult to the United States Government, and demanded that Spain should enforce obedience to the orders sent to the Spanish authorities in Cuba. He complained that the American Consul at Santiago had not been allowed the use of the telegraph, to communicate with his Government at Washington concerning the capture of the Virginus and the murder of her passengers and crew. SICKLES received a reply that no interference by the United States in the Virginus affair would be tolerated by Spain.

If this statement be true, it will hasten the conflict between the United States and Spain, which now seems inevitable, in view of the recent outrages committed by the Spanish officials at Havana.

At the last session of the Legislature, an appropriation of five thousand dollars was made for the benefit of the colored department of the Asylum for the Deaf and Dumb and the Blind. The Committee to whom was entrusted the duty of devising a plan for the building for the colored Asylum which this appropriation was intended to provide for, made their estimates soon after the Legislature adjourned, and reported that the cost of the plan which they had agreed on would be something more than five thousand dollars.

We notice that a correspondent of the Southern Home who signs himself "Justice," comments with severity on the action of the Committee, in erecting a building at a cost of twelve thousand five hundred dollars, or seven thousand five hundred dollars more than the appropriation called for. "Justice" denounces the action of the Committee, in exceeding their powers, as a dangerous precedent—a violation of the law and an evidence of the demoralizing tendencies of the times, which ought to be checked and rebuked. He therefore expresses the hope that the Legislature will not come to the relief of the Committee, but should reject their contract as arbitrary and unauthorized.

In our editorial on this subject last Spring, we expressed the hope that the Committee would not go beyond the appropriation voted by law—however inadequate such an appropriation might be for the purposes intended. We believe that the gentleman having this matter in charge have acted in good faith and were actuated by a philanthropic purpose in what they have done—but the Legislature having voted only five thousand dollars for the purpose, they had no right to exceed that sum.

The Gray and the Blue.  
The Richmond Enquirer, one of the leading Conservative newspapers of the South, calls upon the old Confederate soldiers of Virginia to declare to the country that they are in favor of a vindication of the name of the nation and of such conduct on the part of Congress as will bring the question to a close at once.

In an editorial on "The North and the South and a war with Spain," the Enquirer says:  
"A war with Spain would bring the North and South together in closer fraternalism than there has been between them since our own war with each other. Confederate and Federal soldiers who fought on their separate sides as heroes with their hearts in the strife would be found fighting on the same side, vying in generous rivalry for the meed of patriotic devotion and sectional and personal valor."

The flag of the Union is no more a Northern than a Southern flag. It represents the whole country, every American citizen, whether at home or in a foreign land, whether he is a Confederate or a Federal soldier or sympathizer, when the two sections were at war, whether he lives in Louisiana or Connecticut, has the right to claim it as his flag. When the Confederacy fell and the bright, beautiful banner which so many of us had followed so faithfully from the beginning to the end, was laid away never to be flung to the breeze again, our separate cause, our separate country no longer lived; we bowed in submission to the fate that was ours; and from the date of the restoration of the Union it has been our duty to stand firmly and truly by the country, the whole country, as our own and only land. That duty has been, and is, and will ever be frankly acknowledged and bravely observed by the great body of the Southern people. And in the event of a war with Spain the government will be upheld as earnestly by the South as by the North."

We concur with the Enquirer that a war with Spain would, by uniting under one banner the soldiers of the Union and late Confederate armies, go far towards banishing the sectional ill-will and prejudice engendered by the war between the States, but we would not on that account

have the Government commit any act of hostility towards the Spanish Government not sanctioned by justice, honor, right, the laws of civilized nations, and the enlightened sense of mankind.

Spanish Recklessness and Cruelty—Can War be Avoided?  
The hope which was indulged in by the conservative element of the country, that a war with Spain might be avoided will be almost entirely extinguished, if the startling reports of fresh Spanish atrocities shall be confirmed.

On Thursday last, the vessel, Moro Castle, arrived in New York from Havana, and the intelligence brought by her officers concerning the conduct of the Spanish authorities will add new fuel to the flame of popular excitement that is already blazing in every section of the United States.

The boarding of the American vessels at Havana, the seizure, searching and imprisonment of American citizens, and the shooting of a large number of Cuban sympathizers, indicate a recklessness on the part of the Spanish officials that is utterly incomprehensible, and which is well calculated to excite the horror and indignation of the civilized world.

The general sentiment of this country will be that, if the Government at Madrid is unable to put an end to the cruelties of its officials, the Government at Washington must interfere to protect the lives of American citizens by forcibly seizing and punishing the perpetrators of the bloody outrages which have recently added new infamy to the Spanish name.

If CASTELAR had prevented the further effusion of blood after the execution of RYAN and the three other prominent officials who were shot almost immediately after the capture of the Virginus, peace might have been maintained; but the bloody work which was then inaugurated by the heartless BURELL has continued from day to day until the public mind has become exasperated, and it is now highly probable that an appeal to arms by the United States Government will be made as soon as Congress assembles.

We believe that the Spanish Cabinet will do all in its power to prevent a rupture of the friendly relations that exist between our Government and that of the new Republic of Spain, but we fear matters have gone too far for a peaceful solution of the troubles produced by the Santiago and Havana atrocities.

The CASTELAR Government has shown itself powerless to control its colonial officers, for the Spanish officials in Cuba pay no earthly attention to the orders sent them from Madrid, but continue in their work of butchery and crime. If Spain can not control her own agents and protect the lives of our citizens who may fall into their hands, she will have no right to complain if the Government of the United States is forced to take forcible measures, to punish the inhuman wretches who have brought disgrace upon their country by the commission of cold-blooded atrocities.

The country will sustain the Administration and Congress in any policy towards Spain that is based upon international law. If the forcible occupation of Cuba by the United States troops shall be deemed necessary to obtain "indemnity for the past and security for the future," there will be no difficulty in raising a sufficient number of volunteers for that purpose. The proper way for Spain to prevent this alternative is for the Madrid Government to promptly arrest and punish its Cuban officials who, have shown such an utter disregard of the authority and commands of the Spanish Ministry.

THE FINANCIAL QUESTION.—Senator Sherman, of Ohio, who is chairman of the Senate Finance Committee, said, in conversation at Washington Monday, that he has no doubt some wild inflation measure will be rushed through the House during the first week of the session, but he is confident it will secure its quietus in the Senate. According to the Senator, its grave will probably be the Finance Committee. He does not see how any measure of this character could bring relief to the present paralyzed condition of business, nor can he imagine how it could restore confidence in monetary circles. In his judgment the crisis, if not interfered with by Congress, will in a short time find its own remedy. While entertaining these views, Sherman admits that the masses of the people are anxious for more currency, but he thinks they do not know what is good for them, and that the fulfillment of their wishes would only result in more widespread distress.

The question of holding a constitutional convention in Arkansas is being discussed by the press of that State. The Liberals and Conservatives are in favor of the convention, while the Radical carpet-bag element is opposed to it. The Memphis Appeal says a constitutional convention would very likely re-district the State upon a fair and equitable basis of population and representation, and that the Radicals don't want.

A Professor, in explaining to a class of young ladies the theory according to which the body is entirely renewed every seven years, said: "Thus, Miss B., in seven years you will really be no longer Miss B." "I really hope I shan't," demurely replied the girl, casting down her eyes.

The temper of our people is unmistakable. Man, woman and child are in favor of a vigorous policy on the part of the Government in adjusting the affairs between this country and Spain, growing out of the capture of the Virginus and the horrible massacre of her crew.—Norfolk Landmark.

THE HAVANA PRESS ON THE SITUATION.—The *Voz de Cuba* expresses sorrow that all hostile enterprises against Spain find favor with the majority of the American press. When young Crittenden was executed the American papers took the same course as now, and endeavored to work upon public passions "and mercenary motive. It has no fears of any serious questions arising between the two countries, there being no just grounds therefor. The fact that American war vessels have been ordered to Havana implies nothing. If, unfortunately, the contrary should be the case, and if unjustly intimidated by superior strength, in that case above all others Spanish honor will command every sacrifice from her sons.

The *Diario* says: "We are strong in our right and firm in the resolve, and comfort ourselves well, and have sufficient coolness to hear the American press without returning insult for insult, only again stating that their threats in no wise intimidate us. Because we repeat what we said five years ago to the supreme Government: 'Save the honor of the nation come what may.'"

From Denver comes the story of a stampede of buffaloes so remarkable that it might furnish a good subject for the pencil of Mr. W. H. Beard, the painter of the remarkable picture entitled "Raining Cats and Dogs." Out on the plains a party of hunters chased a large herd of buffaloes to the verge of a precipice, over which some sixty or seventy of the frightened beasts plunged and were killed by the fall, the precipice being about seventy-five feet high. Such a shower of buffaloes as that could never have entered into the wildest dreams of Weather Bureau.

Bridges was elected President, and Messrs. W. T. Walters, W. H. Graham, S. M. Shoemaker, J. D. Cameron, L. D. Childs, B. F. Newcomer and George S. Brown, Directors.

Says the Wilmington Journal of the 20th inst.:

"The steamer pipe leading from the dome to the smoke engine of the steam tug Alpha exploded yesterday morning about 5 o'clock. Ned Collins, the fireman, who was at work on the engine at the time, was badly scalded about the arms and legs, but no one else was injured. Collins' injuries, although severe, are not dangerous."

The 28th annual meeting of the stockholders of the Wilmington & Weldon Railroad was held on Wednesday. Hon. S. N. Martin presided. R. R. Bridges was elected President and the following gentlemen directors: W. A. Wright, A. J. Dickson, George Harris, W. H. Willard, C. H. Brogden, George Howard, B. F. Newcomer, W. T. Walters, S. M. Shoemaker and J. C. Cameron.

Says the Milton Chronicle:

"Old Mrs. Nancy Royster died one day last week in the 85th year of her age. She lived in two and a half miles of Milton and not only never visited the place, but was never a mile from home in her life, so the neighbors say. She stayed close at home and attended to her own business and let other people's alone. A remarkable woman truly, and a veritable bliss to the folks to be wise."

Says the Wilmington Journal of the 20th inst.:

"The Finance Committee of the Board of Aldermen were in session at the City Hall yesterday afternoon and authorized Mr. Servoss, City Treasurer, to advertise for sealed property on which the taxes are due and remain unpaid. This sale will probably be made early in December and is rendered imperative necessary for the purpose of raising the amount necessary to pay the interest on the city bonds falling due in January and for the current expenses of the city government. It will be necessary to raise something like \$40,000 for these two purposes."

BACK PAY DISALLOWED.—A former lieutenant in the United States army, who resigned his commission and went South and joined the Confederacy, now makes application for back pay due him at the time of his resignation, on the ground that Congress has denominated his disabilities. The question being referred to the Attorney General at Washington, that officer decides that the government is by law prohibited from paying such claims.

Entire Unanimity of the Cabinet.

WASHINGTON, Nov. 19.—As an evidence of the entire unanimity of the Cabinet on the existing complications growing out of the Virginia capture and its consequences, it may be mentioned that all the Cabinet officers, though guarded in their expressions as to what diplomatic action has been taken by the Government, or what will be the result of it, do not hesitate to speak in regard to their entire confidence in the President, and the approval by the people of the course pursued when the same shall become known. It is a noticeable fact that in these expressions there is evidence of thorough accord between the President and his Cabinet.

Secretary Richardson, in conversation with a representative of the Associated Press to-day, stated: "I have every confidence in Secretary Fish. He will do just right, and you may be reassured that he will not be carried away by excitement; neither will he yield one bit of the National honor." In reference to the ability of the United States to wage a successful war with Spain, should it be found necessary to resort to arms, he said: "Should such a course be determined upon, the Treasury Department is fully prepared. We have enough money to commence with, and exactly as to what will be done afterwards depends upon the prolongation of a war, though I have no doubt it would be of short duration. As Congress will be here in two weeks, it is very certain that there will be no difficulty in raising all the means we want. A war of course will be expensive, as it requires large sums of money to move armies and fit out ships, but we are equal to the emergency." He then asked the question: "Do you find the Cabinet warlike?" and upon being answered that the sentiment seemed to be to uphold the National honor, he repeated: "The opinions of Mr. Fish are correct, and the Treasury Department is prepared to maintain those opinions."

DEATH OF COL. C. C. PRENTICE.—Colonel Clarence Crittenden, the only surviving son of the late George D. Prentice, the brilliant editor of the Louisville Courier-Journal, was killed last Saturday by being thrown from his buggy while returning to his farm near Louisville. The Courier-Journal says: "Mr. Prentice was a man of varied accomplishments. He had graduated in law and medicine; had resided in Europe, and had traveled over every portion of the United States. He had an especial talent and love for music, and played on several instruments. At his farm in Meade county, where he had resided during the last two years, he entertained largely his numerous friends with a true Kentucky hospitality. He was about maturing plans for the publication of a volume of his father's poems, the manuscript of which he had in his possession. In medicine he was said to be a successful, able practitioner, but preferred farm life and his comparative freedom. His son, George D. Prentice, is the only remaining child of the Prentice family. He is a bright and intelligent boy, and inherits the natural talents of his family."

WE CHALLENGE THE WORLD TO COMPETE WITH IT!!!

The inventor of the "FRANKLIN STEAM WASHER" was owner of the right to manufacture the "Improved" Washer in certain territory. While manufacturing and watching attentively their action and the manner in which they operated, and the results, he discovered certain prominent defects therein. He spent ten months in the study of the subject of finding remedies for these defects. He has at last succeeded—and as the result of his investigation and study, he offers to the public the "FRANKLIN STEAM WASHER," which is by far the best Washing Machine ever patented. We claim as an evidence of its merit that "LETTERS PATENT" were granted over all others.

It washes anything from a Lace Collar to a Bed Blanket. It will cleanse the clothing without tearing and more thoroughly than can possibly be done by hand labor or the use of the rubbing board. With one-fourth of the labor four times as much can be done in the same time as can be done by hand. We could publish columns of certificates of its worth from those who have used it, but for the present we prefer to let the WASHER speak for itself. We give a few below:

MESSRS. BARROW & PLEASANTS, LOUISBURG, September 27th, 1873.

GENTLEMEN:—I have used your "FRANKLIN STEAM WASHER" for some time and can safely say it is far the best I ever saw. I cannot do without it. Mrs. A. W. WILSON.

MESSRS. BARROW & PLEASANTS, LOUISBURG, September 11th, 1873.

GENTLEMEN:—Before purchasing your Steam Washer, I paid four dollars per month for my family washing; now without any additional help, I have the washing done at home and pay fifty cents per week. I have used it for two months, and my clothes are much whiter, and I am satisfied, will last much longer than when washed by rubbing of the use of a board. It is all that you recommend it to be. Very respectfully, Mrs. P. B. HAWKINS.

MESSRS. BARROW & PLEASANTS, LOUISBURG, September 8th, 1873.

GENTLEMEN:—I take pleasure in recommending your "Steam Washer." Very respectfully, Mrs. W. H. FURMAN.
